LIMB DIFFERENCES & PROSTHETICS GUIDE

We understand that every guest has different abilities and requirements. This guide has been designed using manufacturer guidance, taking into account factors such as ride forces and restraint types, to help you understand which rides and attractions may be suitable for you and where certain restrictions may apply.

The guide provides an indication of what you may be able to experience, allowing you to make informed choices about the attractions that may be suitable for you.

If you have a limb difference or wear a prosthetic, it is important that you speak to an operator before riding, even if this guide indicates that the attraction may be suitable for you. A member of our management team may also be required to discuss your individual circumstances and confirm whether you can safely experience the attraction.

UNPLANNED RIDE STOPPAGES

Guests wishing to ride Maximus, Twister or Tidal Wave must be able to walk unaided in the event of an unplanned ride stoppage or emergency evacuation.

Although these situations are uncommon, guests may need to leave the ride away from the normal exit. Depending on where the ride has stopped, evacuation may involve steep slopes, steps, vertical ladders, elevated walkways or the use of specialist access equipment.

Guests must be able to safely navigate the required evacuation route without physical assistance.

UNDERSTANDING THE GUIDE

GREEN
Allowed to ride, subject to applicable ride and safety requirements

RED
Not allowed to ride with the indicated limb difference or prosthetic
